

RE-EVOLVE

 Microsoft
Solutions Partner

EVOLVING
THE WAY
BUSINESSES & IT
COLLABORATE

OUR STORY

After years of witnessing the struggles in traditional software consulting, we saw projects falling short, processes causing frustration, and innovation getting lost. Something needed to change.

That's why Re-Evolve Solutions was born.

Our goal is simple: create a consulting experience that bridges the gap between what's expected and what's delivered.

We focus on building transparent, adaptable, and easy-to-maintain solutions. We do this by designing every project so that any skilled developer can pick up and contribute effortlessly.

At Re-Evolve, collaboration is key—we work side-by-side with our clients to solve real challenges. Our approach is flexible, scalable, and centered on making success a shared victory.

We're not just another consulting firm. We're here to evolve the way businesses and engineers work together.

OUR MISSION IS TO AUTOMATE TEDIOUS AND REDUNDANT TASKS, EMPOWERING YOUR TEAM TO FOCUS ON IMPACTFUL WORK THAT DRIVES INNOVATION AND BUSINESS GROWTH.

OUR CORE VALUES

CUSTOMER-CENTRIC PARTNERSHIP

We prioritize being a trusted partner, focusing on understanding and exceeding our clients' needs. Our goal is to create enduring relationships that drive mutual success.

PASSION FOR PROGRESS

We take pride in what we do, fostering a positive environment where passion and purpose converge. Our team is driven by the enjoyment of solving complex challenges and celebrating shared achievements.

INNOVATION FOR IMPACT

We are committed to continuous innovation, delivering solutions that not only meet today's needs but also enable long-term growth and adaptability. We believe innovation should always lead to tangible, transformative outcomes.

COLLABORATION FOR SUCCESS

We value teamwork and transparent communication, both internally and with our clients. By aligning our goals and resources, we aim to achieve shared victories and elevate the consulting experience.

GROWTH WITH PURPOSE

We set clear targets to expand our reach and expertise, such as partnering with industry leaders and scaling our team to meet evolving demands. Every milestone we achieve reflects our dedication to creating value and impact.

OUR SERVICES

DYNAMICS 365

Design Customized CRM solutions tailored to your business needs.

Implementation Seamless CRM deployment to streamline operations.

Integration Connecting Dynamics 365 with other business applications.

Support Continuous support to ensure smooth system performance.

Training Fully maximize CRM potential.

AZURE CLOUD SERVICES

Architecture Design Building robust and scalable cloud architectures.

Custom Development Implementation Developing cloud solutions tailored to your specific needs.

Infrastructure Implementation Setting up a secure and efficient cloud environment.

Support Proactive monitoring and issue resolution.

Training Enabling teams to harness Azure's full potential.

Security Ensuring compliance and safeguarding data.

Optimizations Continuous performance and cost management.

POWER PLATFORM SOLUTIONS

Power Automate Flows Automating repetitive tasks.

Power BI Dashboard & Report Implementation Visualizing data for actionable insights.

Power BI Machine Learning Integration Unlocking predictive analytics.

Power BI Training Upskilling teams to leverage Power BI.

Power Pages Developing low-code portals for self-service solutions.

Power Apps Crafting custom business applications.

Microsoft Forms Gathering and analyzing feedback efficiently.

Power Platform Training Enabling teams to create their own solutions.

Microsoft Co-Pilot Studio AI-powered solutions reimaged.

DATA & ANALYTICS SERVICES

ETL Pipeline Design Structuring data flows for effective processing.

SQL Server & Azure Synapse Optimizations Enhancing database performance.

Data Factory Development Creating complex data integration solutions.

Data Bricks Development Leveraging data for advanced analytics.

Data Modeling Designing data structures for better insights.

Machine Learning Model Creation Building predictive models for data-driven decisions.

DEVOPS ENABLEMENT

Process Design Implementation Establishing efficient development workflows.

Administration Set Up Setting up environments for seamless DevOps operations.

Continuous Integration and Deployment (CI/CD) Pipelines Automating code releases.

Repository Setup & Maintenance Organizing and maintaining code repositories.

Test Plan Implementation Defining testing strategies for software quality.

DevOps Training Building in-house DevOps capabilities.
